from our General
Catalogue. . . .**

VALUES BETTER THAN EVER

The big feature of our 1925 Wallpaper Book is the remarkable value evident in each offering. While this year's book was being prepared, nothing was allowed to stand in the way of the lowest possible prices that a great buying power could secure, compatible with quality and up-to-the-minute style. Wallpaper priced as low as 5c. per single roll!—this is to be found on page 11 and represents in proportion, the values possible to secure on any of the succeeding 85 pages.

So comprehensive is the range of designs and colorings that we feel your request for our samples will be fruitful of pleasing wall hangings for your home.

When your order amounts to less than \$5.00, allow sufficient to pay charges. Should any balance be left it will be promptly returned to you. A room-lot of wallpaper may not make up the necessary \$5.00 order total, but before paying the charges consider whether you require, say,—paint brushes, paste brush or tools for trimming or hanging your wallpaper; enamel or varnish to brighten up the woodwork or floors. A purchase of any of these things may make up the difference, and enable you to take advantage of our \$5.00 free delivery policy.

ROOM MOULDINGS, ETC.

WHITE ENAMEL

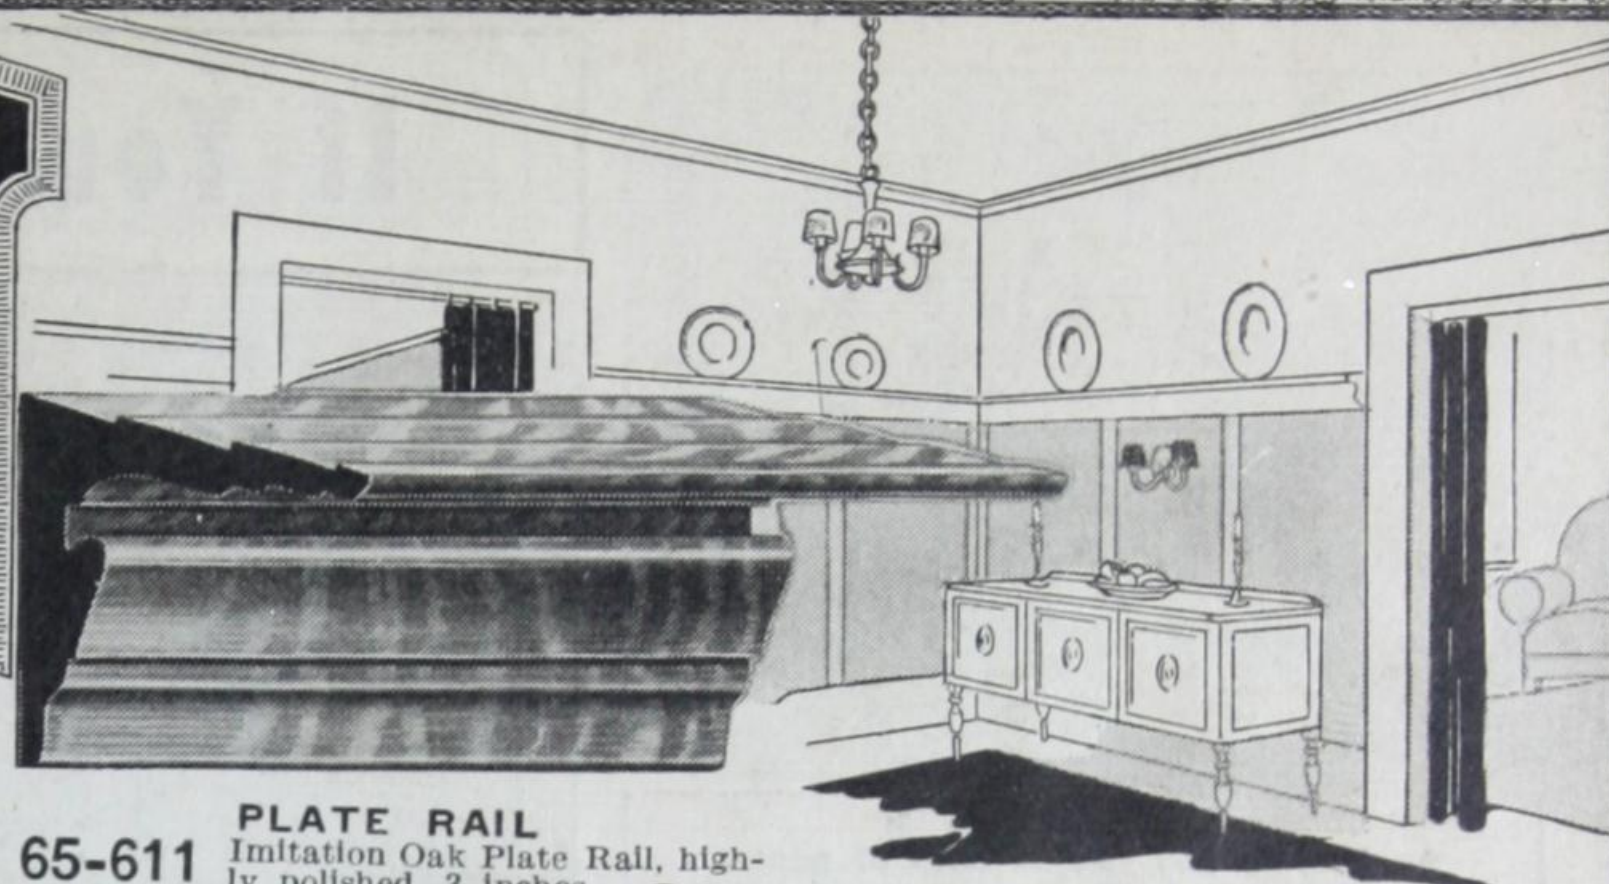

65-615 White enamel with gilt band through centre. 1 1/2 ins. wide, per foot **5c**

WHITE ENAMEL

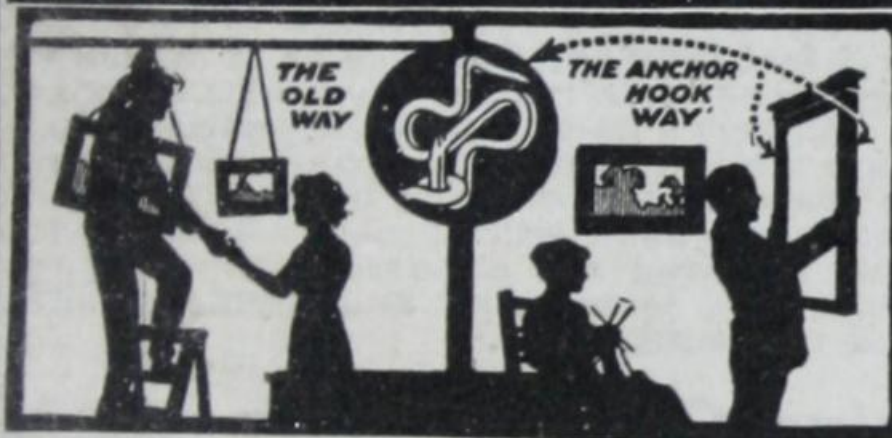

65-618 Moulding 1 1/2 ins. wide, per foot **3 1/2c**
65-612 Moulding 2 inches wide, per foot. **7c**

PLATE RAIL

65-611 Imitation Oak Plate Rail, highly polished, 3 inches wide, per foot. **20c**

Hang your Pictures without Wire

Anchor Picture Hooks

Medium Size 14 hooks, per box **15c** Large Size 10 hooks, box **15c**
665-398 Hanging pictures, mirrors etc., by cord or wire, is both awkward and unsatisfactory, continually needing adjusting which finally disfigures the wall. Anchor Picture Hooks do not mar the wall, even after being taken down, for the points are left in the wall to fill up the hole they made. Two of these hooks are used for each picture and they hold it perfectly straight. They never need adjusting.

Imitation Oak Room Moulding

65-617 Imitation Oak Room Moulding 1 1/2 inches wide, per foot. **3c**

Plain Gilt Moulding

65-614 1 1/2 inches wide, per foot. **5c**

Imitation Oak Chair Rail

65-613 1 1/2 inches wide, per foot. **4c**
65-616 2 inches wide, per foot. **5c**

Decorators' Cotton

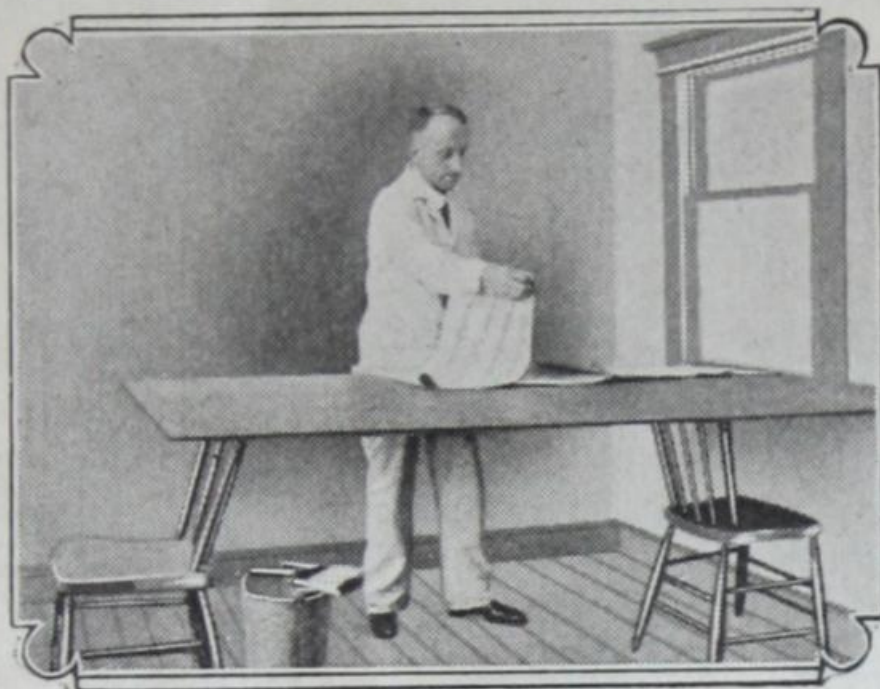

65-499 Walls or ceilings that show a tendency to crack or crumble should be covered with decorators' cotton before painting or paper hanging. Fill all cracks, tack cotton down at corners and size it. This will stretch cotton tight on walls. Remove tacks and decorate when dry. 36 inches wide. Per yard. **20c**

Basswood Strapping

Ideal for panelling woodwork, wallboards, paper or plaster. Its fine uniform grain makes splendid ground for enamel work.

65-603 1 1/2 inches wide, per foot. **3c**
65-604 2 inches wide, per foot. **3 1/2c**
65-605 2 1/2 inches wide, per foot. **4 1/2c**

If You Intend Doing Your Own

1—Pasting and folding strip of paper.

How To Treat New Walls

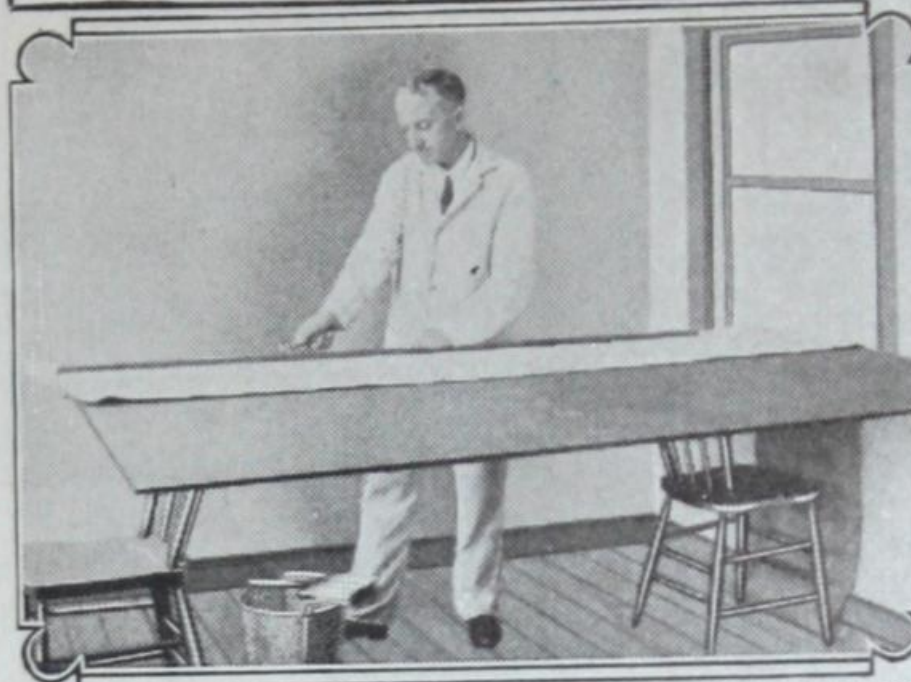

To new walls that have never been papered, apply a thin coat of size, made by soaking 1 pound of ground glue for 12 hours in just enough water to cover it and then adding 12 quarts of hot water and a tablespoonful of powdered alum. Use it while it is warm.

Before any size is applied on the walls, all large cracks or holes should be filled with plaster paris, mixed to a paste with the size, and scraped smooth. Small ones will not show. Kalsomine or whitewash should be washed off with a sponge and warm water. If the walls have been rough plastered or not putty coated, smooth off the projecting grains of sand with a piece of wood before sizing. When walls are very rough, apply a thin paste when the size is dry, and let paste dry thoroughly before papering.

Before papering over a wall that has been painted, apply a solution consisting of one part ammonia and six parts water. This will remove all grease and oil—producing a better surface for the paste.

Board ceilings and walls should be covered with cheesecloth, which, to shrink it tight to the walls, should be tacked at edges and sized. At the corners and around the casings, tacks should be placed about 2 inches from edge, and the ends of cloth pasted down.

To avoid having the paper curl up at edges, be careful to clean and size the walls thoroughly around the baseboard and casing.

2—Trimming a strip of paper after it has been pasted.

3—How to put on first strip of ceiling paper—Lap 2 inches on sidewall at each end and sides.

Preparing For Hanging Wallpaper

Get two boards 7 or 8 feet long and about 10 or 12 inches wide placed side by side with the ends resting on tables or boxes 3 or 4 feet high, which will serve as an excellent paste table. A platform to stand upon while hanging the paper can be made by placing a plank or board on two or more boxes which should be high enough so that your head will be about 6 inches from the ceiling. The tools required are a paste brush, a paper-hanger's smoothing brush, a seam roller and a pair of shears or a straight edge and trimming knife.

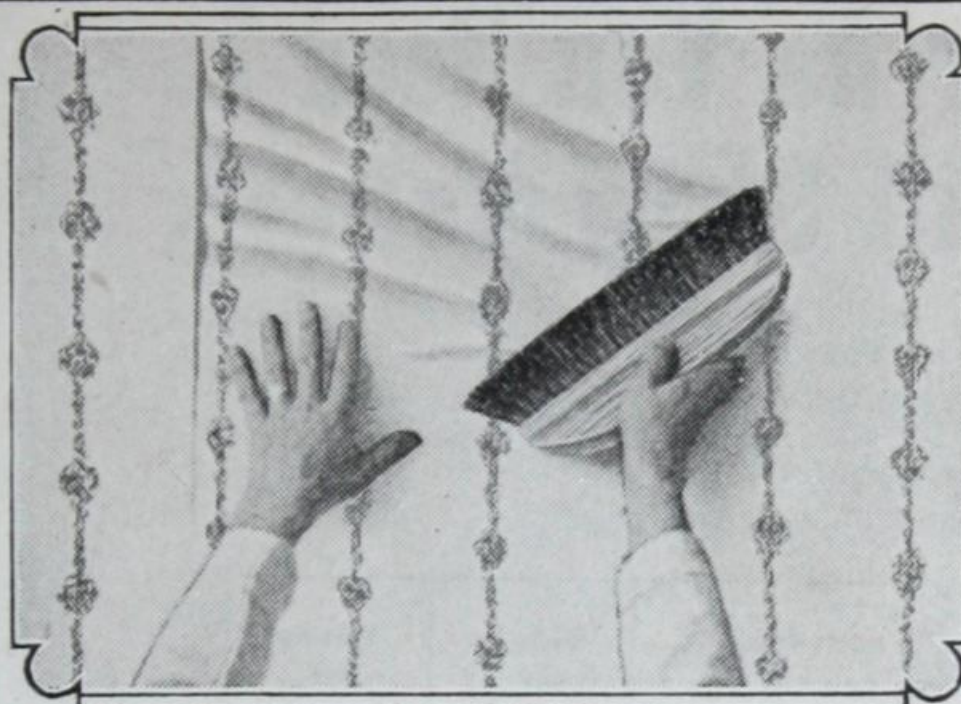

Hanging Ceiling Paper

As a guide to hanging the first strip, drive a nail in at each end of the ceiling 16 inches from the sidewalls. Rub a piece of cord with charcoal or chalk and tie to the nails, being sure it is drawn tight. Then take hold of the centre of cord, pull down and let go; cord will strike the ceiling and leave a chalk line, shown in illustration No. 3. Take strip you have pasted and trimmed, unfold end to your right, and let other end, which is still unfolded, hang over a roll of wallpaper held in your left hand. See illustration No. 3. Guide paper along chalk line, at the same time pressing on ceiling flat with your hands as you move along and smoothing it out with a smoothing brush.

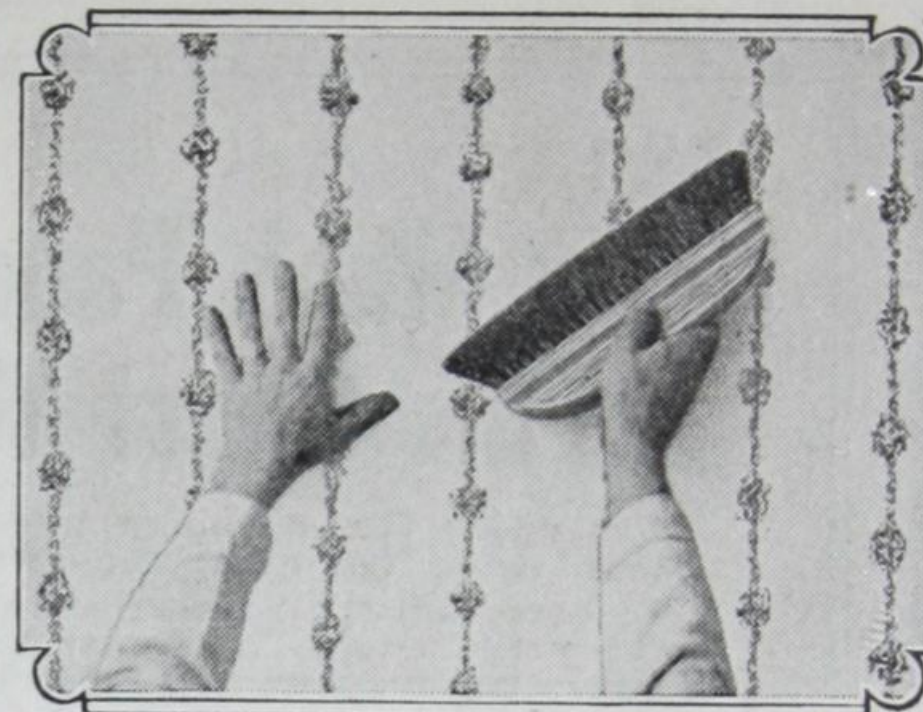

Paperhanging—Read These Directions !

4—Hanging sidewall paper, matching and allowing at top for border.

5—Wrong Way: Paste smeared over adjoining paper because edge was trimmed before pasting.

6—Right Way: Trimmed after pasting; all excess paste trimmed off with selvage.

Pasting and Smoothing

Ceiling and Sidewall

Always paper ceiling first. Find the length of your room, unroll ceiling paper, pattern up, cut and match enough for a whole room. Leave strips about 4 inches longer than length required, so that when hung 2 inches will come down on walls at each end. Then turn pattern down, and it is ready to paste.

After pasting, draw paper towards you about 3 inches from end of table, and proceed to trim, commencing at the right. See illustration No. 2. The great advantage of trimming after pasting is that the paste is more evenly distributed at the edges, and it also takes less time.

When ceiling is finished, cut the side wallpaper, matching, and leaving about 4 or 5 inches to allow for any waste in matching. The upper end of the strips will be uneven. These will be covered by the border. Trim off lower ends at baseboard with a base trimmer or a pair of shears. When using shears, paste the paper down in place close to the top of baseboard. Use back of shears for marking by running them over the top of paper where plaster and baseboard meet. Lift the paper a little and trim along where you have marked, and smooth down again with smoothing brush.

When hanging sidewall paper, commence at any door, as corners are often irregular. This will assist you to hang the first strip straight. Then continue around room until finished.

Beginning at the left of the table, apply the paste evenly with a paste brush on the top strip of paper. After you have applied the paste on about one-half the length, fold over (be careful not to crease) the part of paper that is pasted, using special care to see that the sides are exactly even. (See illustration No. 1).

Now apply paste to the other half, and fold that over towards the centre—the same as the first half. If strip of paper is longer than the table, paste the left half, and after folding, allow the folded ends to hang over the ends of table and rest on floor while you are pasting and folding the other half. Next, trim as previously directed. You now have an entire strip of paper before you, all pasted and folded, and the side of the paper perfectly even and ready for hanging.

To have a neat, clean finish after smoothing out, do not trim the selvage edge off until after paste has been applied. It is difficult to paste evenly along a strip of paper after it has been trimmed and not get a few drops over the edge which will likely ooze out and smear over the adjoining paper hung. (See illustration No. 5).

This smearing is avoided by leaving the selvage edge on until you finish pasting, then when trimming, all excess paste is also taken off, which leaves a clean and neat finish. (See illustration No. 6).

How To Order

How Much Paper Do You Need? This Chart Will Show You

For every two openings in the room, deduct one single roll of sidewall from the number shown in the chart.

To ascertain the number of rolls required for ceilings of hallways, multiply the length by the width in feet, and divide by 35, which will give the number of single rolls required.

One single roll of wallpaper covers 35 square feet.

Distance around room in ft.	Single rolls of sidewall required according to height of room.					Single rolls of Ceiling.	Yards of Border.
	8 ft.	9 ft.	10 ft.	11 ft.	12 ft.

84	20	22	24	27	29	13	29

How To Measure Your Rooms Correctly

Find the number of feet around room and multiply by the height. This will give you the number of square feet in the walls. Deduct 20 square feet for each opening, then divide the balance by 35, which will give you the number of single rolls required for walls. For ceiling, multiply the length of the room by the width, divide the total by 35, and it will give you the number of single rolls required for papering the ceiling.

Although put up in double rolls for convenience in cutting, our wallpaper prices are always quoted by the single roll (35 square feet) and border by single yard. Should you order 10 rolls of paper, therefore, and appear to receive only five, remember the double rolls when checking your order.

Wall Paper

When You Figure For Borders Remember This—

Always allow two extra yards for cutting and matching when measuring for border.

Having arrived at the number of yards required for your work, **Order Accordingly.** Do not pay attention to the fact that two yards of border are printed on one width of paper. Borders are sold only by the single yard, no matter how many are printed on a yard of paper. Therefore, if the border costs 5c per yard, and it takes 18 yards to go around your room, the total cost will be 90c. Should this be narrow border, you would only receive 9 yards of paper, which would carry 18 yards of border.

Read This Before You Order —

Wallpapers are sold by the single roll, of 35 square feet.

All wallpapers (except Oatmeal Paper) are put up two rolls in the piece to avoid waste in cutting. Oatmeal Papers contain three rolls to a piece.

Figure measurements for wallpaper in feet—not yards.

Borders are sold by the single yard.

Prenez Connaissance de ces Renseignements

Les papiers peints sont vendus par rouleau simple de 35 pieds carrés.

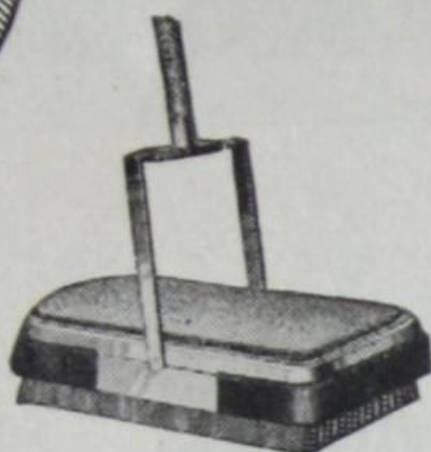

Tout papier peint excepté le papier "Farine d'Avoine" est emballé par 2 rouleaux à chaque pièce pour éviter la perte en coupant le papier.

Chaque pièce de papier "Farine d'Avoine" contient 3 rouleaux.

Calculez les dimensions pour le papier peint en pieds —Non pas en verges.

Les bordures sont vendues par verge simple.

Si vous comprenez bien cet avis, tout malentendu sera éliminé quand vous recevrez votre papier.

The Waxer Polisher

665-399 One of the most successful Waxer and Polishers yet devised is the "B. & B." It removes the necessity for kneeling to do your waxing, for on the reverse side of the brush a cork surface is provided for applying the wax. Directions for use accompany

each brush. Each **3.75**

665-384 A well-made 15-lb. polishing brush, without waxer.

Price **2.50**

Floor Wax

665-047

5-lb Tin 1.15

Buy your Wax in the large 5-lb. container. It is easier to handle, spreads more uniformly over the cloth, and far less expensive in proportion than the smaller size cans. Our Special Floor Wax will satisfy.

For Papering and Painting

STICK-FAST

2-lb.
Pkg.

40c

5-lb.
Pkg.

85c

665-395 All the disadvantages of flour paste for adhesive purposes are guarded against in the manufacture of Diamond Stick-fast Paste Powder. The troubles of the paperhanger are cut down in the matter of paste souring, failing to properly stick in patches, lumpiness, and having to prepare with boiling water.

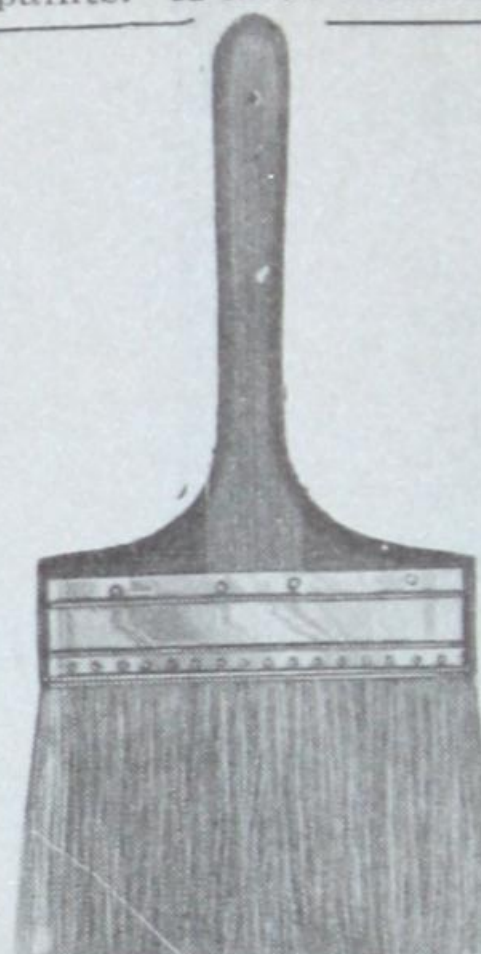

Stick-fast is proof against these things, and as less bulk is required it is more economical. It is good for the heavy work of burlap hanging, and the fine label or photograph pasting.

Painter's Time Saver

665-531

Each **25c**

The bane of the painter's experience is the effort to preserve the nearby surfaces from smears of his brush. Aptly called "The Time Saver," the manner of its accomplishment is described in the illustration and will appeal to anyone who paints. A most sensible tool.

Oval Brush

665-513 2 1/4-inch

bristles.

Each **65c**

2 5/8-inch bristles.

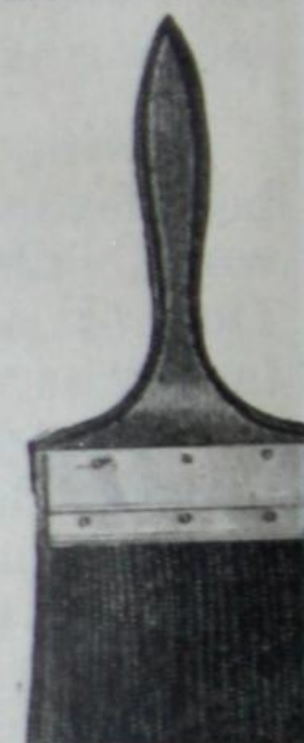

Each **1.10**

The oval brush will be right for almost any paint, varnish or enamel work. Made of black bristles, set in rubber.

665-511 Set in rubber.

Each **1.75**

A good black bristle brush, 7 inches wide, for kalsomine work. Suitable for the fine plaster walls of the interior or the rough stucco of the outside.

665-502 3

wide. Each .. **7**

3 1/2 inches wide. Each .. **9**

4 inches wide, each .. **1.**

The black bristle this strongly made Wall Brush are s rubber.

665-385 An 11-inch hardwood paint paddle. Each

665-527 Each .. **50c**

The most effective roller to obtain neat seams, even in the most awkward corners. Note the side arm features.

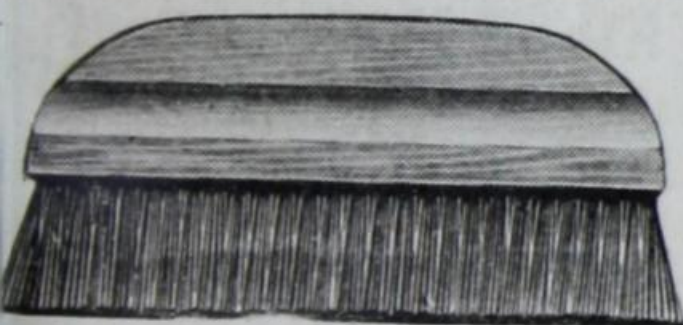

665-528 Each **25c**

Wall Scraping Knife for removing old wallpaper, etc., from walls and ceilings. Its stiff blade is 3 1/2 inches long, set in a hardwood handle.

665-526 Each .. **30c**

An Iron-handled Trimmer for Wallpaper, to finish around windows, baseboards, etc. Possesses a keen serrated edge.

665-507 10 ins. wide Each **75c**

Fine quality black bristle paper layer, set in rubber. Though soft and smooth, is full of life for good work.

665-530 Each .. **50c**

Cut and trim with one tool. Use this very handy combination.

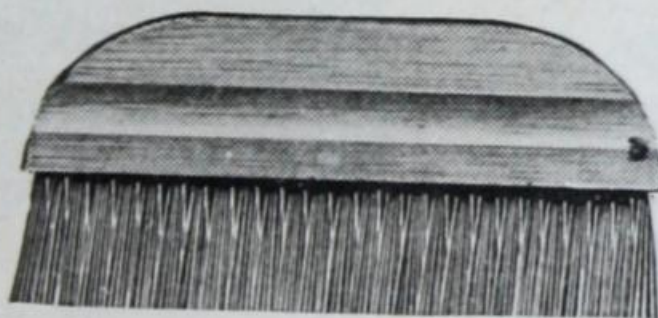

665-525 Each .. **25c**

The tool with which to apply putty or crack filler to seam, nail holes, cracks in plaster, etc.

665-529 Each .. **45c**

For rolling down seams and bubbles when paperhanging. Made of stout metal and hardwood.

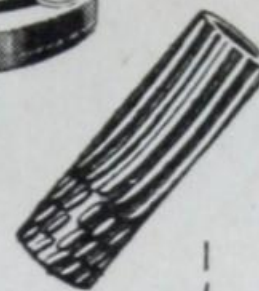

665-508 10 ins. wide Each **25c**

Low price and durability are the features of this grey fibre smoothing brush. The paper-hanger's need.

Quart, **75c**
1/2-gallon **1.45**
Gallon, **2.75**

665-380 An under-body of great density. **EATON** Ground Color is the right base for such interior finishes as graining color, varnish stain, floor lac, etc.

Davis Grainers

665-379 Per set **1.50**

With directions for use in each box, the work of graining is simplicity itself. Davis Grainers are the medium through which pretty hardwood grain effects are produced. The set comprises three rubber rollers 4 3/4 ins. long and 1 1/2 ins. in diameter.

Pint **40c** Quart **75c**

665-377. Light Oak
665-378. Dark Oak

Producing oak effects by hand or graining tools, use **EATON** Graining Color. As an underbody we suggest **EATON** Ground Color, and finish with **EATON** High Grade Floor Varnish.

Sizing Glue

665-396 1-lb. pkg. **20c**

Treat new plaster walls, etc., with a coat of size before decorating. Free lime may ruin your colors in paper or paint otherwise.

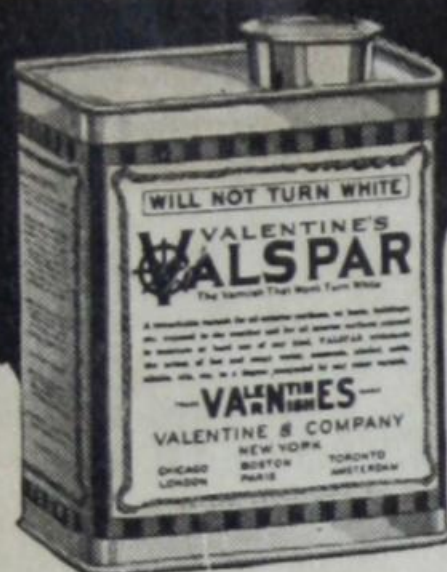

Use 1 package to pail of boiling water, stir well, and apply lukewarm.

Gilt Enamel

1/8 Pint **35c** 1/4 Pint **55c**

665-489 A small quantity of Diamond Gilt Enamel goes a long way. The bright touch that relieves may be appropriately applied to picture frames, fancy furniture, basketware, radiators, etc.

Though for little more than a dollar, a room-lot of this paper can be procured it may be noticed that the same attention to details of design and coloring is shown as in the higher priced lines. The border to match is $7\frac{1}{4}$ inches wide in a conventional design, surmounted with scenic effects.

The lace-like screen used over this design has the pleasing effect of subduing the coloring and adding to the beauty of the treatment. With the exception of a narrow black strapping and small white tiles at the top, the matching 6-inch cut-out border differs but slightly from the sidewall in color or feature.

In contrast to the floral effects in the sidewall panels, flowers of the 6-inch border are in full bloom. Following the outline of petal and foliage the cut-out style is formed.

Notre Papier Peint est roulé
en rouleaux doubles pour éviter
la perte.

The miniature display on the reverse side of the matching 7½-inch cut-out border conveys a fair appreciation of this decorative scheme. Poppies in full bloom and in bud are formed and colored with artistic exactitude.

Soft shaded plain hangings used in contrast to this delightful
all over design would produce an interior setting of beauty.
The 6-inch cut-out border may be visualized as rather more
shadowy than the miniature shows.

On background of grey and white, rose and hawthorn blooms are arranged tastefully in the formation of a 6½-inch cut-out border. The introduction of white makes a striking contrast.

Notre Papier Peint est roulé en rouleaux doubles pour éviter la perte.

Though the matching scenic border is 8 inches wide it is designed to permit the use of the 1½-inch crown as a base-band and the lower 6½-inch cut-out part as the border proper. Simply cut along the black line.

Grey toned papers are undoubtedly the most restful of any. This softly blended treatment is at once both composing and cheery, for the use of cheerful colors has been made on a grey ground to mellow them. The original cut-out border to match is 7 inches wide—See miniature.

As if to recompense a subdued sidewall, the matching 8½-inch cut-out border displays cheery coloring of the exotic flower and leaf effects. By reducing the border width about an inch, a banding may be taken from the crown for base trimming.

No more charming color than grey can be well conceived as an aid to reposeful interior decoration. But it must be blended with artistic accuracy to secure the necessary softness. Your attention is drawn to the color scheme in this treatment. The 7 $\frac{3}{4}$ -inch cut-out border to match is shown in miniature.

With all kinds of paper to select from this design was chosen for the treatment of a Model Living-Room for our Store display. The effect was as good as anticipated. Contributing to the scheme is a 6-inch cut-out border which as shown in miniature contrasts its strong colors with the soft-toned sidewall.

How to Measure your Ceiling

Multiply the length of the room by the width, and divide the total by 35. Your answer will be the number of single rolls required.

Where a drop-ceiling is preferred add two single rolls for the average-sized room.

CREAM
(Pour Plafond)
65-265.

Notre Papier Peint est roulé en rouleaux doubles pour éviter la perte.

ANCHOR PICTURE HOOKS

Medium Size
14 Hooks **15c**
Per Box

Large Size
10 Hooks **15c**
Per Box

665-398 Once you use these Anchor Picture Hooks, you'll absolutely discard the old-fashioned method of hanging your pictures by wire. Two of these hooks are used for each picture—one at each side—and they hold the picture perfectly straight. Anchor hooks are firm—there's no possibility of the picture becoming crooked.

DIAMOND Porch Floor Paint

Quart	1/2-Gal.	Gallon Tin
1.25	2.35	4.50

Colors—665-402. Lt. Yellow
665-403. Dk. Yellow

665-404. Pearl Grey
665-405. Lt. Slate

Whether the surface to be treated is inside or outside; porch floors, steps or kitchen floors, our first recommendation will be given in favor of Diamond  Porch Paint. It bears the name and possesses the quality of our best house paint, which is widely known for its durability and beauty of color and gloss. Remember, when making your purchase, a good paint has greater covering capacity than a low-quality paint, and is therefore more economical.

One gallon covers from 350 to 400 sq. feet, two coats.

EATON High Grade Floor Varnish

Pint	Quart	1/2-Gal.	Gal. Tin
60c	1.05	1.95	3.60

665-422 If you are contemplating some interior varnish work on floors, linoleums, woodwork or furniture, try EATON High Grade Floor Varnish, for the money and labor spent on it will be well repaid in the beauty of the resulting finish. Our department tests and the growing demand for this number is convincing of its quality, and the price quoted will be recognized in comparison as decidedly low. One quart will cover 150 square feet, one coat.

Snow White Enamel

Pint	Quart	1/2-Gal.	Gal. Tin
1.00	1.80	3.50	6.75

665-393 Combined with the snowy whiteness of this enamel is the hard wearing nature of its glossy surface. You would undoubtedly sense satisfaction looking upon and realizing the freshness of the walls, ceilings or woodwork of bathroom or kitchen finished with this splendid product. When in doubt as to the decoration of furniture, doors, woodwork, mouldings, cabinets, etc., think of "EATON'S Snow White Enamel." White is the one color that is never wrong.

One quart will cover 75 sq. ft., two coats.

Diamond House Paint

665-230 White	665-235 Buff	665-203 Flesh
665-229 Yellow	665-239 Dark Olive	665-237 Dark Green
665-234 Pea Green	665-213 Brunswick Brown	665-201 Cream
665-227 Blue Grey	665-202 Light Green	665-232 Pearl Grey
665-225 Colonial Yellow	665-215 Venetian Red	665-221 Warm Drab
665-212 Straw	665-204 Maroon	665-238 Azure Blue
665-228 Leather Brown	665-205 French Grey	665-207 Light Buff

Tackle your Spring painting with confidence by using Diamond  House Paint. The elements contained in this high quality paint, for preservation and decoration, will offset the ravages of the weather and the great cost of replacement that is inevitable to unpainted or neglected surfaces.

For Diamond  Paint we invite comparison unreservedly in the matter of covering power, wear, finish and cost. One gallon covers about 400 square feet, two coats; inside or outside work.

Quart, \$1.25 Half-Gal. Tin, \$2.35 Five-Gal. Tin, \$22.00
